

KEN NICHOLAS LATIF

Data Scientist | AI Engineer

Jakarta, Indonesia | kennicholas89@gmail.com | +62 895-3380-66318 | github.com/KenNicholas | [linkedin.com/in/kennicholaslatif](https://www.linkedin.com/in/kennicholaslatif) | portofolio-saya-black-tau.vercel.app

SUMMARY

Undergraduate Computer Science student specializing in Intelligent Systems and Full-Stack AI Integration. Experienced in building interactive web applications, architecting end-to-end machine learning pipelines, and deploying optimized models via FastAPI and Docker. Motivated to bridge the gap between complex AI algorithms and lightweight web applications to deliver low-latency, scalable, and practical tech solutions.

EDUCATION

Bachelor of Science in Computer Science

BINUS University

September 2024 - Present

- GPA:** 3.91 / 4.00 | Expected Graduation: 2028
- Relevant Courses:** Machine Learning, Deep Learning, Computer Vision, Natural Language Processing, Data Mining, Database Technology, Software Engineering.
- Publications:** Co-authored a research paper on Comparative Analysis of ResNet50, EfficientNet-B7, and DenseNet121 for Breast Cancer Ultrasound Image Classification (Presented at ICIMTECH 2026)

ACADEMIC & PERSONAL PROJECTS

Breast Cancer CAD | *React, FastAPI, DenseNet121* | breast-cancer-detect-q59t.vercel.app 2026

- Engineered an end-to-end Computer-Aided Diagnosis (CAD) web application utilizing React and FastAPI for real-time breast cancer ultrasound image classification.
- Architected, custom-trained, and deployed a DenseNet121 deep learning model integrated with Grad-CAM (Explainable AI) to provide transparent and interpretable visual diagnostics.
- Optimized computer vision preprocessing pipelines, including data augmentation, contrast adjustment, and dynamic resizing, reducing inference latency for real-world deployment.

AI Text Sentinel | *React, Tailwind, NLP* | fake-spam-review-detect.vercel.app 2026

- Developed a real-time NLP classification engine for detecting spam and fake reviews by training a custom model and cleaned textual data, achieving a 92% predictive accuracy.
- Architected a responsive React/Tailwind frontend integrated with a Dockerized FastAPI backend, deployed on Hugging Face Spaces for real-time web inference.
- Engineered robust data pipelines using NLTK to train the model and support text inputs and batch file analysis.

Malicious URL Detect | *FastAPI, Decision Tree, JavaScript* | malicious-url-detection-beta.vercel.app 2026

- Engineered a real-time cybersecurity threat detection system by training a Decision Tree Classifier on 22 extracted lexical features to identify phishing, malware, and defacement URLs, achieving 86% accuracy.
- Spearheaded extensive Exploratory Data Analysis (EDA) and data preprocessing to evaluate multiple machine learning algorithms for low-latency environments.
- Integrated the predictive model with an interactive JavaScript frontend via REST API, delivering confidence score and classification results for end-users.

Pantryon | *Flutter, Supabase, Agile* | github.com/Mycticount-X/Pantryon-Mobile 2026

- Co-developed a Flutter-based mobile application within a 5-member Agile team, designed to mitigate household food waste through AI-driven menu recommendations.
- Programmed a smart barcode scanning feature for automated data retrieval, implementing an intuitive error-handling UI.
- Configured a Supabase backend and authored comprehensive technical documentation to streamline Git collaboration workflows.

SKILLS

Programming Languages

Python, Java, C, JavaScript, Dart, SQL, HTML/CSS

Frameworks & Libraries

React (Vite), Tailwind CSS, Flutter, Node.js, FastAPI, Bootstrap

AI & Data

Machine Learning, Deep Learning, Computer Vision, NLP, Hugging Face, Kaggle

Tools & Databases

MySQL, Git, GitHub, VS Code, Figma, XAMPP, Microsoft 365

Spoken Languages

Indonesian (Native), English (Proficient), Chinese (Basic)

CERTIFICATES

- Microsoft Certified: Azure AI Fundamentals | Microsoft | Mar 2026
- Application Development: Pantryon Mobile App | BINUS University | Jul 2026
- Paper Author: ICIMTech 2026 | BINUS University | Aug 2026
