KEN NICHOLAS LATIF

Data Scientist | AI Engineer

Jakarta, Indonesia | kennicholas89@gmail.com | +62 895-3380-66318 | github.com/KenNicholas | linkedin.com/in/kennicholaslatif | portofolio-saya-black-tau.vercel.app

SUMMARY

Undergraduate Computer Science student specializing in Intelligent Systems and Full-Stack AI Integration. Proficient in the complete AI lifecycle—from Exploratory Data Analysis (EDA), feature extraction, and custom model training to building RESTful APIs with FastAPI and developing interactive web applications. Experienced in deploying containerized models (Docker) to deliver low-latency, end-to-end tech solutions.

EDUCATION

Bachelor of Science in Computer Science

BINUS University *September 2024 - Present*

- **GPA:** 3.91 / 4.00 | **Expected Graduation:** 2028 | **Honors:** SOCS S-Class (Top Cohort)
- **Relevant Courses:** Machine Learning, Deep Learning, Computer Vision, Natural Language Processing, Data Mining, Database Technology, Software Engineering.
- **Publications:** Co-authored a research paper on Comparative Analysis of ResNet50, EfficientNet-B7, and DenseNet121 for Breast Cancer Ultrasound Image Classification (Presented at ICIMTECH 2026)

ACADEMIC & PERSONAL PROJECTS

Breast Cancer CAD | *React, FastAPI, DenseNet121* | breast-cancer-detect-q59t.vercel.app *2026*

- Executed Exploratory Data Analysis (EDA) and computer vision preprocessing (data augmentation, dynamic resizing) to custom-train a DenseNet121 deep learning model with Grad-CAM (XAI) for interpretable diagnostics.
- Architected a low-latency RESTful API using FastAPI to serve model predictions and visual diagnostic heatmaps in real-time.
- Engineered a responsive React web application and integrated it with the AI backend, delivering an end-to-end CAD platform deployed live for user interaction.

AI Text Sentinel | *React, Tailwind, NLP* | fake-spam-review-detect.vercel.app *2026*

- Performed text cleaning, tokenization, and feature extraction using NLTK to train a custom NLP classification engine for detecting spam/fake reviews with 92% accuracy.
- Wrapped the NLP inference pipeline inside a Dockerized FastAPI backend deployed on Hugging Face Spaces for continuous API availability.
- Built an interactive React/Tailwind frontend that connects seamlessly to the AI backend, enabling users to perform both real-time single-text inputs and batch file analysis

Malicious URL Detect | *FastAPI, Decision Tree, JavaScript* | malicious-url-detection-beta.vercel.app *2026*

- Spearheaded extensive Exploratory Data Analysis (EDA) and feature engineering to extract 22 lexical features from raw URL strings, evaluating multiple ML algorithms to select the optimal model for low-latency execution.
- Trained and fine-tuned a Decision Tree Classifier for low-latency inference, achieving 86% accuracy.
- Integrated the predictive model into an interactive JavaScript web frontend via FastAPI REST APIs to deliver instantaneous threat classifications and confidence scores.

Pantryon | *Flutter, Supabase, Agile* | github.com/Mycticount-X/Pantryon-Mobile *2026*

- Co-developed a Flutter-based mobile application within a 5-member Agile team, designed to mitigate household food waste through AI-driven menu recommendations.
- Programmed a smart barcode scanning feature for automated data retrieval, implementing custom error-handling UI components to ensure seamless user onboarding.
- Configured and integrated a Supabase backend database, authoring comprehensive technical documentation and API schemas to streamline team Git workflows and collaboration.

SKILLS

Programming Languages	Python, Java, C, JavaScript, Dart, SQL, HTML/CSS
Frameworks & Libraries	React (Vite), Tailwind CSS, Flutter, Node.js, FastAPI, Bootstrap
AI & Data	Machine Learning, Deep Learning, Computer Vision, NLP, Exploratory Data Analysis (EDA), Feature Engineering, Model Training & Evaluation
Tools & Databases	MySQL, Git, GitHub, VS Code, Figma, XAMPP, Microsoft 365, Hugging Face, Kaggle
Spoken Languages	Indonesian (Native), English (Proficient), Chinese (Basic)

CERTIFICATES

- Microsoft Certified: Azure AI Fundamentals | Microsoft | Mar 2026
- Application Development: Pantryon Mobile App | SOCS S-Class, BINUS University | Jul 2026
- Paper Author: ICIMTech 2026 | BINUS University | Aug 2026
